

Four Faculty Members Plan July Retirement

Dean MacCormack, Professor Langley Included In Group

The retirement of four prominent members of the faculty of the Institute, effective at the end of the academic year on July 1, was announced today by Dr. Karl T. Compton, president of the Institute. They are Professor Walter R. MacCormack, Dean of the School of Architecture; Professor Ernest F. Langley, Head of the Department of Modern Languages; Professor Floyd E. Armstrong of the Department of Economics, and Roy G. Burnham, Instructor in the Section of Graphics.

Dean MacCormack became head of the School of Architecture in 1939 upon the retirement of Dean William Emerson. He has been appointed an honorary lecturer and after his retirement will devote himself to a continuation of his activities for post-war reconstruction and the development of a national policy for training architects to meet the exacting demands of the future. Dean MacCormack is widely known as an authority on the design of school and college buildings. As a member of the Board of Education of Cleveland, Ohio, some years ago, he participated in the development of a \$40,000,000 school building program, and another of his important projects was the Southern School Building and Industrial College Program of the Julius Rosenwald Fund.

Knox College Graduate

Dean MacCormack was educated at Knox Academy and Knox College at Galesburg, Ill., and was graduated from the Institute's School of Architecture in 1903. During his distinguished career he has contributed in many important ways to

T.E.N. On Sale Next Tues., Wed.

The April issue of the Tech Engineering News, the Institute's undergraduate professional journal, will go on sale Tuesday and Wednesday, April 18 and 19, in the lobby of Building 10.

In continuation of the series, "This Is M. I. T.," this issue will feature the Department of Mechanical Engineering. Professor Edward R. Schwarz has written on the textile division of the department, and Professor C. Fayette Taylor on the automotive department.

The alumnus of the month is Dr. Frank B. Jewett, '03, president of the American Telephone and Telegraph Company.

Two new features will be introduced in the new issue: a picture quiz on Technology, and "Interesting Facts from the World of Science."

Debating Soc. Meets Lat. American Club

The Faculty Lounge will be the scene of a debate between the M.I.T. Debating Society and the Latin-American Club, tomorrow at 5:00 P. M. The argument is: Resolved, that the United States should, by written consent of the Latin-American countries, have final control over their international, economical, and political relations.

The negative side against the Debating Society will be taken by Fernando Eleta of Panama and Cesar Duran-Ballen from Ecuador. Dean Colwell will judge.

2-A Quota Rescinded Some Seniors May Stay

The Institute has been notified by Leonard Carmichael, Director of the National Roster of Scientific and Specialized Personnel, that the deferment of science students under the national quota has been rescinded. It is understood that consideration may be given to the deferments of students who will receive degrees by July 1, 1944.

Solons Consider Changing Status Of Debate Society

Motion To Take Society Off Class A List Tabled Temporarily

A motion to withdraw the Class A recognition of the Debating Society was brought up at yesterday afternoon's regular Institute Committee meeting. The motion was tabled until the next meeting, and a committee composed of Peter L. Quatrochi, 10-44, Robert M. Gould, 6-45, and James S. Craig, 2-46, was appointed to investigate the activities of the Debating Society.

The freshman council elections of the past two weeks were approved without discussion, and the meeting was brought to a quick close.

George E. McKewen, Jr., 6-45, Gabe E. deRoeth, 10-44, and Robert L. Hunter, 10-44, were absent. King Cayce, 10-44, Robert B. Hildebrand, 6-45, Kenneth G. Scheid, 10-44, William C. Cahill, 2-46, F. Joseph Amrhein, Jr., 10-44, were represented by proxies.

Jesuit Speaks To Catholic Club

Father Shorthell Also Speaks On Labor Schools

Father Thomas F. McDermott, S.J. of the Jesuit Missions opened the weekly Catholic Club meeting by giving a short talk on the Jesuit Missions. He then introduced Father Thomas Shorthell of Holy Cross College.

The subject of Fr. Shorthell's talk was "The Labor School at Holy Cross" of which he is the head. The school is free for all workers and there are no restrictions in regard to unions or religion. "Current Labor Problems," "Parliamentary Procedure," and "Public Speaking," are just a few of the many subjects taught for the benefit of labor and industry.

Buffet Supper Planned

After the talks, Frank Nolan, 10-44, president of the club announced that a buffet supper will be held next Sunday, April 16, at 5:00 P. M. in St. Benedict's Hall, Harvard Square. This supper is being held in conjunction with a newly formed confederation including the Wellesley, Radcliffe, and Harvard Catholic Clubs.

Recognition Gained By Rocket Society

The recent publications of the M.I.T. Rocket Society have been described as "significant" by the American Rocket Society to which they were sent in the hope of nationwide republication. Members are now working on term reports to be added to the publications of last term.

At the present time the experimental program consists chiefly of fuel tests. The substitution of nitrogen dioxides as an oxidizing agent to replace nitrous oxide is one of the more recent considerations.

A new vice president will be elected at the next meeting of the organization in Litchfield Lounge.

Service Banner, Given By Alumni, Now In Building 7

Symbolic of the tremendous contributions made by Technology alumni in the armed services is the red-bordered flag which now hangs from the second balcony in the Lobby of Building 7. Against its white background are two stars, one in gold for those alumni who have died in the service of their country, and the lower one in blue for those now in uniform.

The flag was given to the Institute by President Chesterman of the Alumni Association on the night of Feb. 26 at the Alumni Banquet in the Statler Hotel. President Karl T. Compton accepted the flag in behalf of the Institute. "The ceremony," said a recent issue of the Technology Review, "was an impressive reminder of the Institute's close relationship to the war and a sincere remembrance of the thousands of M.I.T. men who could be present that evening in thought only."

49 Give Lives

Beneath each star on the flag is a number. In gold figures is the number 49; and in blue figures is the impressive number 5501. This information for the flag has been collected by the Alumni office and has been published regularly on a

Magoun Lectures About Honeymoon

920 Students Attend Second Spring Lecture

Professor F. Alexander Magoun gave the second of his spring series of T.C.A. marriage lectures Tuesday afternoon in Huntington Hall before some 920 persons. His topic was "The Honeymoon." Professor Magoun emphasized the importance of the honeymoon in determining the success of the marriage and outlined several physical and emotional problems encountered on the honeymoon.

The third talk in the marriage series will be given this Tuesday at the regular hours, 4:00 P. M. and 5:00 P. M., in Huntington Hall. Professor Magoun will be introduced by Christopher G. Boland, 6-45, at the early lecture, and by Gilbert K. Krulee, 10-44, at the later session.

Russian Officer To Speak Here

Captain In Red Army Will Talk Wednesday

Captain Orest Shevtsov of the Russian Army will hold a speech on "Student Life in Soviet Russia" on Wednesday, April 19, at 4:00 P. M. in Room 1-190. He will be introduced by Professor Norbert Wiener. Captain Shevtsov will speak in Russian, and Dr. Paul Anderson will act as his interpreter.

Captain Shevtsov, twenty-five years old, studied chemistry at the Government University of Moscow. He specialized in the chemistry of petroleum, and did some research on raising the octane number of certain benzines by the use of catalysts. When the war began he left his studies and joined the army, being put in charge of a group of snipers. He was seriously wounded during the battle of Moscow, when he was in command of a full squadron of men. He was later wounded a second and third time, and was then chosen to come to the United

Several members of the Rocket Research Society testing their equipment; from left to right: Robert F. Fauvre, 2-46, Treasurer; Robert B. Smith, 2-44; John Cook, President; Marion C. Rinehart, 2-46; and Edward C. Doyle, 2-46, Secretary.

I. F. C. Chooses Big Name Band; Not Yet Signed

Table Reservations Are Still Available; Tickets On Sale Today

A name band has been chosen to play at the I. F. C. Prom on May 12 it was announced last night by Carroll W. Boyce, 10-44, Chairman of the Dance Committee. The name cannot be divulged as yet as the contracts have not yet been signed but the announcement will appear in next Friday's issue of The Tech.

The delay in the announcement of the band's identity is caused by the fact that the band leader is in 1A in the draft and notice from his draft board that he would be available on May 12 did not arrive until yesterday. For this reason the contracts will not be signed until next week.

Some Tables Left

Boyce also announced that there are still a few tables available for the dance. Most of these will not be set up until 11:00 P. M. on the night of the Prom when additional floor space will become available.

Ticket sales are proceeding well and Boyce said that not more than 50 to 75 tickets would be available this morning. These may be obtained at the sales desk in the Lobby of Building 10.

Freshman Council Will Hold Meeting

The Elections Committee has announced that the newly elected freshman council will hold an important meeting next Wednesday at 5:00 P. M. in Room 10-267. The elections of the section leaders, who comprise the council, and their alternates was approved at yesterday afternoon's Institute Committee meeting.

H. E. Campbell and S. L. Hill were elected section leaders of navy freshman sections a and b in elections held this week. Richard M. Sorenson and Marvin Brackin are the respective alternates.

Technique Activity Photos To Be Taken Next Week

The organization and fraternity pictures for Technique are to be taken next week. Formal pictures of activities will be taken Monday, Tuesday and Wednesday afternoons from 5:00 P. M. to 6:00 P. M. in the Faculty Lounge. Fraternity pictures will be taken Tuesday night after 7:00 P. M. in the 5:15 Club room.

For these pictures the Technique staff would like those photographed to wear coats, ties and white shirts if possible. Navy men should wear their dress blue jumpers. Since they are not permitted to wear these dress jumpers in going over to Walker Memorial, they should bring them along and change there.

Seniors who have not returned their proofs must have them in at the Waid Studios, 18 Newbury St., Boston, by the end of next week. They may be taken in or mailed.

Any Senior who has not had pictures taken, may get his in the yearbook by notifying Technique so a space may be reserved for him. They should make their own arrangements with Waid's for having the pictures taken. This must be done before the end of April.

I.F.C. PAN-AMERICANISM

At the last meeting of the Interfraternity Conference the suggestion was brought up that the Latin-American House be admitted to the Conference. It was promptly laughed down, and ignored on the grounds that the House had not been in existence for two years, a requisite for membership according to the I.F.C. constitution.

The I.F.C. might not have acted as it did if its members had fully comprehended the situation better. They undoubtedly acted in good faith but by no means completely understood the motivations of the students they were dealing with. An open-minded investigation of the group might lead the I.F.C. to change its decision in part.

The Latin-American House was founded last November by a group of South American students. It is run along much the same lines as a fraternity, but the South American students, who have never had any experience with fraternities, are anxious to learn more of the details of fraternity organization, those less obvious to outsiders. They would like to participate in Institute sports, and other activities.

The Interfraternity Conference could assist them in this, even by only letting them attend meetings. Should they be left to develop as best they may, in no way connected with the I.F.C., when the two years have past they may well have developed along other lines, and the I.F.C. will have lost a potential member. This could be a serious loss, for the Latin-American House will not lose men to the draft, and may become powerful if it continues to grow at its present rate. It is only common sense that the I.F.C. should aid and direct the development of the Latin-American House.

Not only is it common sense, but it is also common courtesy. We are, in a way, hosts to the South American students, and as such we have been neglecting our duties. They have come to the Institute with good-neighbor feeling, Pan-Americanism, and the expectancy of cooperation. Instead of being greeted with the same feelings they have been totally ignored, so that they are forced to organize their own house, and devise ways of publicizing it.

Their organization, with assistance and supervision, can develop into a fine and important body at the Institute, and an important part of the I.F.C. They have the ambition, they have the ability. May we humbly suggest that they be given the assistance, the opportunity?

STAFF PROMOTIONS

We of *The Tech* are very proud to announce the following promotions on our staff. Ralph R. Scherer, 6-45, has been made Sports Editor and Homer D. Eckhardt, 6-45, has been promoted to the post of Engraving Editor. Both of these men will now be members of the Associate Board.

Further advancements have moved William F. Herberg, 2-46, and Robert G. Wilson, 2-46, to the status of Staff Assistants. William C. Dowling, 2-46, has been made a reporter.

We wish to extend our congratulations to each of these five men.

The Reader Speaks

April 12, 1944

Editor, The Tech:

In the April 7 issue of *The Tech* there appeared a biased editorial concerning the activities and functions of the Quadrangle Club. The day before, one of the members of the last year's club had been interviewed by the editor. This interview was carried out in a most cordial fashion. The following day *The Tech* came out in its usual hypocritical manner by slinging a not uncommon amount of mud. The editor presented his petty grievances to the student body by both mis-stating the facts and drawing untrue conclusions. To keep the records straight, we wish to state the proper facts. Thirty-five prominent freshmen, representing every major activity, were interviewed by members of the preceding Q Club at the end of the last term. As a result of these interviews, twelve men were chosen as a nucleus of the new club, and ten more were selected at the first meeting. Thus the last "farce election" netted twenty-two men who entered the club at the beginning of the present term.

Your suggestion that we have upperclass officers and run Field Day we discount for three reasons. The Q Club is a Sophomore Honorary organization consequently should be run by Sophomores. We maintain that the past failures of the club are greatly due to the lack of co-operation of these selfsame upperclassmen. Thirdly, Field Day should be run by non-participants to maintain a spirit of fairness. The present Q Club has been in operation for a little over a month. As its first project it chose to enforce the freshman tie rule. That it was successful is shown by the fact that only four freshmen consistently failed to comply with the rules.

We maintain that an organization, any organization, that has as its function the betterment of any phase of Institute life is indeed as worthwhile as an activity that does a halfway job of bringing to students some obvious facts, some announcements, and some news that could be as competently handled by the bulletin boards and one page per month in *Voo Doo*. Everyone should clean his own house in the Spring. We've cleaned ours!

The Quadrangle Club

Reviews and Previews

RKO BOSTON—Bill Robinson, the world famous dance star, is the stage attraction here this week. Along with Bill is Dolly Dawn a cute little vocalist, and Pat Henning, who has a pretty good line of jokes. The film is *Gung Ho*, a realistic and accurate account of the raid on Makin Island. The famous Lieut. Col. Carson is played by Randolph Scott.

LOEW'S STATE AND ORPHEUM—Here is another of those light comedy-romances called *Lost Angel*, which should be better than average. The star is cute and lovable Margaret O'Brien. By devious means she becomes mixed up in a reporter's love affair, but in the end she makes everything come out all right. James Craig plays the usual happy-go-lucky reporter, and Marsha Hunt his sweetheart. The second picture is *Hey, Rookie*, with Ann Miller and Joe Besser.

KEITH MEMORIAL—Funny, hilarious, side-splitting, or any other adjectives you could think of still won't describe *Up In Arms*, unquestionably the funniest picture of the year. Danny Kaye, a real comedian, is the whole show. Even Dinah Shore, one of the best vocalists in the country, is overshadowed by his performance. Don't miss this picture, it's tops. *Passport to Destiny*, the second picture, can be tolerated. **METROPOLITAN**—Continued for a second week is *Standing Room Only*,

In The Spotlight

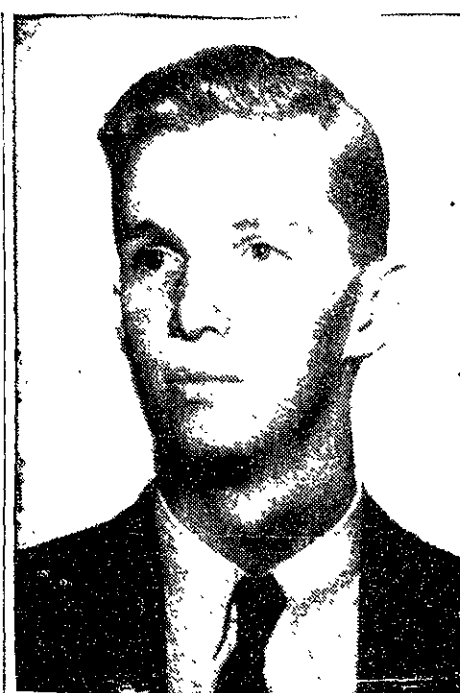

"Gabriel Edward Martin Gaze de Roeth," etc., etc., reads a tattered birth certificate, "born in the township of Szeged, Hungary, in the year of Our Lord—" (Censored because the draft board isn't to know.) That was the first warning the world got of deRoeth's coming. A short while later the infant spoke a word and it was decided that Gabriel was not the name to call him by.

Time flowed gently under the bridge and then Pappa deRoeth decided to leave Hungary. The family, in their haste, hurtled across the Atlantic and almost flew on by America, but they managed to slow down in time to land in Spokane (pronounced spo-kan), Washington. Gabe, quite a brilliant lad by now, was placed in Gonzaga High School in Spokane, and, when he got tired of amusing himself there, went on to Gonzaga University.

Spans Continent Second Time

After a year of Gonzaga University, things got boring in Washington and Gabe decided to take a look at the country he was now in. Once again he overestimated the size of the United States, but did get stopped before he ran into the Atlantic when he hit Boston. (It would be ever so easy to digress and put in a few kind thoughts about Boston here.) Presumably there was some reasoning involved when deRoeth decided to go to M.I.T. So here he is in Course X, and a success at that. This article would be much shorter if the last sentence was not true, but, having made it, we will qualify it.

In his Sophomore year at Technology, Gabe got on the Elections and Institute Committees. In the spring he played lacrosse. He kept these activities alive within himself and added to his honors the position of junior member on the Senior Week Committee. That same year, he pledged Alpha Chi Sigma. This year, his Senior year, Gabe is still holding down what he gathered in earlier years, swapping his junior membership for a senior membership on the Senior Week Committee, a plain position for

Staff Photo

GABE E. deROETH

chairmanship of the Elections Committee. And now, *THE TECH* has his name in it so often, that it would seem bare without it, so he is on the Editorial Board and his name is at the top of the second page every week.

Joined Chi Phi

Not long after he came to Technology, Gabe decided that Chi Phi was the best fraternity for him. He seems to have figured that he could do more drinking and less work there than at any other house after seeing the size and excellence of the houses beer-stained files. Since then, in between telling the freshmen what a lousy bunch they are, he tells the Sophomores long and glorious tales of the prowess of every member of his pledge class.

Although in Course X, deRoeth takes all his electives in XXV and has a well equipped lab set up over at 22 The Fenway. He goes strong on wine, women, and song, with his enthusiasm dropping towards the last — especially when the song is at 8:00 A.M. As to names, telephone numbers, and vital statistics, he makes the pledges carry around his "little" black books, one volume apiece.

For Boys To Play

This weekend the Boys of Babcock Street are throwing a "Pin-up Party" at their Brookline establishment. The S. A. M. "photographers" advertise that things will

start developing at 9:00 P. M. and advise all to bring their favorite model to their well-equipped studios.

This Saturday night the musical Man-about-Tech will have a heyday. The Glee Club is holding a concert with Colby Junior College at the Longwood Towers. It is reported that Colby is bringing down some 45 examples of feminine pulchritude for a varied musical program with the representatives of Technology. Festivities start at 8:00 P. M. and all are invited to attend. (Note: admission is free.)

Taylor Appointed T.C.A. Secretary

Samuel K. Taylor, 10-44, has been appointed Secretary of the Technology Christian Association to replace Joost Sluis, 10-44, who is now in the service. He will serve as Secretary for the remainder of Sluis' term.

Taylor was Co-Director of the Blotter and then Assistant Treasurer of the T.C.A. when he was at the Institute some time ago. After serving in the armed forces, he is now back at Technology as a member of the Class of 10-44.

a film about busy Washington, D. C. Paulette Goddard and Fred MacMurray are the lovers who can't find a place to stay in the overcrowded capital. The other picture is *The Navy Way* with Robert Lowery and Jean Parker.

PARAMOUNT AND FENWAY—*The Sullivan's*, the story of the five brothers who grew up together, fought together, and died together, is held over for a second week here. Anne Baxter and Thomas Mitchell fill the leading roles. The second picture is a run-of-the-mill story of life in a lumber camp called *Timber Queen*. Richard Arlen and June Havoc are the stars.

Captain Ryder Leaves Institute

Captain Lincoln W. Ryder, left Technology on April 10 on call to active duty, thus ending a stay of approximately one and a half years at the Institute as Assistant Professor of Military Science and Tactics.

Captain Ryder, a Technology graduate of the Class of 1934 came here on October 20, 1942 from the Fort Belvoir Engineering School. He was made Assistant in charge of the R.O.T.C. Engineering department and later was placed in charge of that department. He was also Supply Officer for the Technology A.S.T.P. unit.

BUY WAR BONDS

Lacrosse Team Plays Saturday

Preparation For Opener Only Two Weeks Ahead

M. I. T.'s Lacrosse Team is rounding into shape in preparation for their first game of the season this coming Saturday against the Boston Lacrosse Club at 3:30 on Briggs Field. The Team looks pretty good at this time, if the comments of two coaches may be taken as criteria. Link Redshaw, who coached the Techmen last year, gave his opinion that this year's team, as it stands now, is far superior to last year's team, at any time. The present coach, Charlie Van Umberton gave out with the conservative statement that prospects are good.

Many Veterans Return

The Coach has about forty men out for the team, many veterans of last year. With Captain Jim Brayton, Bob Bronson, Thompson, Massaglia, deRoeth, Levenson, and Davidoff seasoned by last year's competition, and new men such as Wyckoff, Riggs, Wellard, and Meyerhoff, who have seen varsity competition before coming to Tech, the Coach has quality material to choose his team from.

With all the interest shown by the squad, and the work they have put into practice on the turf of Briggs Field, it looks as if the Lacrosse Team is heading for a good season.

Service Flag Shows 5501 Alumni In Armed Service

(Continued from Page 1)

special page of the Review, titled M.I.T. Men At War. The figures on the flag were accurate as of the middle of February. Corrections will be made from time to time.

Professor Charles E. Locke, '96, secretary of the Alumni Association emphasized that this token to Technology's men in the service will be replaced after the war by a permanent volume which will cite the Institute's record of achievement in World War II.

Russian Captain Speaks Wednesday

(Continued from Page 1)

States as a representative of Soviet students. He is planning to take several courses at Columbia and to participate in various student activities while he is in the country.

Now Touring Country

Captain Shevtsov is now touring the country under the sponsorship of the World Student Service Fund. He has talked on education in Soviet Russia at several American colleges, and, by virtue of his extensive training in sciences, is well prepared to speak specifically on Russian scientific education.

Inter-Squad Meet On Briggs Cinders

"Inter-squad track meet this Saturday afternoon at 3:00 P. M. on Briggs Field," was the brief communique issued from the field house yesterday. With eight events, including running and field, on the card, Coach Oscar Hedlund expects all his men to turn out for the first practice outdoor meet this spring.

Only two weeks remain before the season opener on April 29, when Holy Cross and Northeastern come to town for a triangular meet here.

Two Jayvee Meets

Two dates have now been definitely set for the jayvee cinder-men during May with Milton and Brown. These contests now bring to nine the total of meets for the Beavers this spring.

The actual events tomorrow afternoon include the 75-yd. dash, 300-yd. run, 660-yd. run, 1 1/4-mile run, high jump, broad jump, shot put, and pole vault.

Math Club Gives Series Of Talks

Dr. Wm. F. Whitmore Will Give Lecture

Dr. William F. Whitmore, of the Physics Department, will give a lecture to the M.I.T. Mathematics Club on Tuesday, April 18, at 4:00 P.M. in Room 2-170. The title of Dr. Whitmore's talks is "Prolegomenon to Integral Equations."

In the near future, the club will sponsor talks on probability and mathematical statistics. All students are invited to attend, since no special knowledge of mathematics outside of calculus is required to understand these lectures.

Aeronautical Soc. Elects Lester, Pres.

At the first meeting of the American Institute of Aeronautical Sciences, held Thursday, April 6, new officers were elected. These are: President, Joseph T. Lester, 10-44; Vice-President, Robert L. Hunter, 10-44; Secretary-Treasurer, Richard H. Hinchcliff, 10-44; Activities Chairman, Leonard F. Glancy, 10-44.

Professor Richard H. Smith, of the Aeronautical Engineering Staff, gave a brief but interesting talk on the activities of the Society, pointing out that it is the only remaining professional Aeronautical Engineering society active at the Institute. After his talk, the coming membership drive was discussed.

Camera Contest Winners Named

O'Donnell And Gorn Get M.I.T.O.C. Award

The M.I.T. Outing Club Camera Contest winners have been announced. The prize went jointly to Stanley M. Gorn, and Robert J. O'Donnell. It included a year's free attendance at the I.O.C.A. Square Dances and the honor of having their pictures represent the Outing Club in Technique.

This weekend Al Smith is leading a rock-climbing trip in the Quincy Quarries. The trip will start at 9:00 A.M. Sunday morning, April 16. As usual, instructions will be available for beginners. At the same time a bicycling trip will leave for the Sudbury State Forest, under the leadership of Robert L. Bryant, 6-45. It is tentatively planned to call a halt at the famous Wayside Inn in the Forest.

For Saturday, April 22, an I.O.C.A. Square Dance is scheduled at Memorial Hall, Harvard Square. Instruction begins at 7:30 P.M. and Regular Square Dancing, with Al Smith calling, commences at 8:00 P.M.

Dramashop Will Present "Holiday"

Play Will Be Given At Peabody Playhouse

The M.I.T. Dramashop is presenting Philip Barry's comedy "Holiday" on Friday and Saturday, May 5 and 6 at 8:30 P.M. The production will be given at the Peabody Playhouse, 357 Charles St., Boston. Philip Barry is probably best known for his "Philadelphia Story" done both on stage and screen.

According to Professor Dean M. Fuller, the director, the major roles are those of Linda Seton, a part assumed by Eleanor C. Edwardson, 2-46; Johnny Case, as portrayed by Alfred J. Oxenham, 6-45; and Julia Seton, to be played by Frieda S. Ormanský, 6-45.

The rest of the cast includes: Ned Seton, Jephtha H. Wade, 6-45; Susan Potter, Mary E. Sullivan, 6-45; Nick Potter, John T. Fitch, 2-46; Edward Seton, Durga S. Bajpai, 6-45; Laura Cram, Emily Vanderbilt, 6-45; Seton Cram, Robert W. Conner, 2-46; Henry, William McSiebert, 2-46; Charlie, James B. Weaver, 2-44; Della, Betty Fullerton.

Kappa Sigma Defeats D. U. In B.K. Opener

Phi Kappa Sigma Trims Phi Kappa 15-2, 15-5; Other Teams Are Idle

Kappa Sigma overtook the D.U.'s in the opening game of the Beaver Key Society's Volleyball Tournament held in Walker Memorial Gymnasium last Wednesday evening. They took two straight games by the scores of 15-5 and 15-12. The second engagement of the evening saw Phi Kappa Sigma defeat Phi Kappa twice by the scores of 15-5 and 15-2.

The game was comparatively new to most of the players, but nevertheless proved very interesting to them and the spectators. The game between Kappa Sigma and Delta Upsilon was the highlight of the evening. The D.U.'s took an early lead with a score of 7-0. The Kappa Sigs sparked by the playing of Herman Aguiere, 10-46, finally won the game.

In the Phi Kappa Sigma-Phi Kappa games, Phi Kappa Sigma scored easy victories. Bob Hildebrand, 6-45, was their star player.

It was through the efforts of Jim Hoaglund, who is managing the tournament, that it finally got underway. He solved the main difficulty in retrieving the volleyball net and ball. There have been twenty-one teams entered in the tourney. Eleven of them drew byes in the first round. The four teams who survive the straight elimination will play a round robin to determine the winner.

T.C.A. Boys Workers To Hold Dance April 22

A Boys Workers Dance with Girls Workers from Wellesley and Bouvé will be held by the T. C. A. Boys Work Division on Saturday evening, April 22, it was announced yesterday by William F. Blitzer, 6-45, head of the division. The dance will be held at the Roxbury Neighborhood House, a settlement at which T. C. A. Boys Workers have worked for several years.

Music will be furnished by records, and refreshments will be served. The dance is open, however, only to members of the Boys Work division.

Have a Coca-Cola = Kia Ora

(GOOD LUCK)

...or sealing friendships in New Zealand!

Kia ora, says the New Zealander to wish you well. Have a "Coke" is the way the Yank says it and he's made a friend. It says Welcome neighbor from Auckland to Albuquerque. 'Round the globe, Coca-Cola stands for the pause that refreshes,—has become the high-sign between friendly-minded people. So, of course, Coca-Cola belongs in your icebox at home.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
COCA-COLA BOTTLING CO. OF BOSTON

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

Four Of Staff To Retire In July

(Continued from Page 1)

the education and training of architects. He has been a lecturer in architecture at various universities and during his years in Cleveland he gave a course of lectures on professional practice at the Cleveland School of Architecture at Western Reserve University.

Professor Langley, who has been head of the Institute's Department of Modern Languages since 1930, is a native of Toronto, Canada. He was graduated from the University of Toronto in 1894, and in 1900 received the degree of master of arts at Harvard, where in 1909 he was awarded the degree of doctor of philosophy. He also carried on advance studies at the universities of Paris, Leipzig, Heidelberg, and Instituto di Studi Superiori in Florence, Italy.

Instructed at Harvard

From 1896 to 1904 Professor Langley was an instructor at Dartmouth College, and continued as an assistant professor there from 1904 to 1910, when he joined the staff of the Institute as Professor of Romance Languages. Between 1925 and 1930 Professor Langley was a Lecturer of Romance Languages at Harvard College.

Professor Langley is a member of the Modern Language Association of America, the New England Modern Language Association, the Dante Society of America, Societe des textes Francais Modernes, Paris; Association of Teachers of Italian, Harvard Musical Association, and the American Academy. In 1937 he was elected president of the M.I.T. branch of the American Association of University Professors. He is the author of "The Extant Repertory of the Early Sicilian Poets," and has edited many other works.

Rural Schools Superintendent

A native of Michigan, Professor Armstrong was educated at the public schools of Gladwin and Bay City high school. He taught for three years in rural schools and served

for two years in the grade school at Gladwin. For eight years he was country school superintendent in charge of rural schools, and superintendent of the Gladwin public schools.

In 1911 Professor Armstrong entered the Michigan State Normal College, and the following year transferred to the University of Michigan, where he received the degree of bachelor of arts in 1914, and his master's degree in arts in 1916. While carrying on his graduate work in economics and law, he served as an instructor in economics. He joined the staff of the Institute in 1916 as an assistant professor, was promoted to Associate Professor of Political Economy in 1919 and to professor in 1926. He has lectured at Boston, Harvard, and Northeastern Universities. In 1929 he was granted a leave-of-absence for a year for travel around the world.

Mr. Burnham, a native of Essex, Mass., was graduated from the Institute with the degree of bachelor of science in 1900. He joined the staff of the Institute in the Department of Mechanical Engineering in 1902 as a teacher of mechanical drawing and became an Instructor in Mechanical Engineering in 1904, serving to 1935, when he was appointed an Instructor in Drawing. He has served as a member of the teaching staff of the Lowell Institute School for forty years and has also been an examining aid to the Civil Service Commissioner of Massachusetts.
